

## ALUMINIUM HEAT TREATING FURNACE

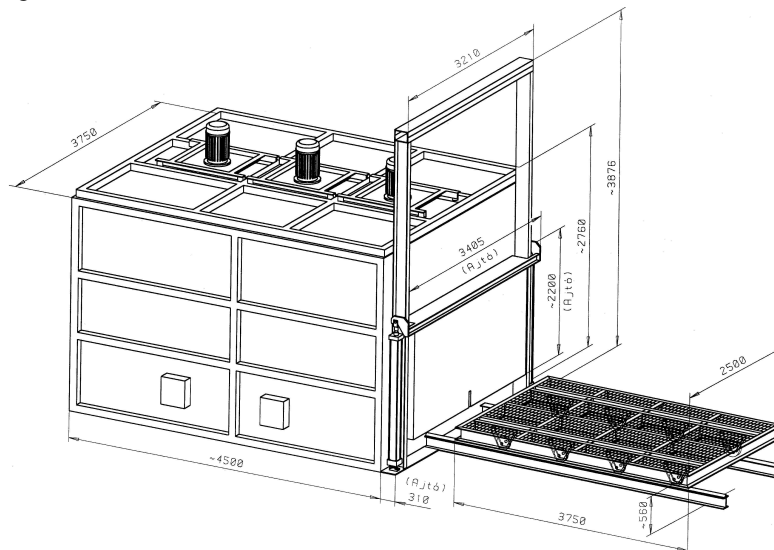

### AL HOMOGENIZING FURNACE

Furnace stock:	Al castings	Nominal heating capacity:	80 kW electrical
Max. weight of furnace stock:	1,6 t	Max. temperature of furnace chamber:	550 °C
Moving of furnace stock:	charging of fork lift	Temperature accuracy:	± 3 °C
Dimensions of working chamber:	2500x1500x1600 mm		

### BOGIE TYPE ALUMINIUM ANNEALING FURNACE

Furnace stock:	Al castings	Nominal heating capacity:	120 kW electrical
Max. weight of furnace stock:	6 t	Max. temperature of working chamber:	150-200 °C
Moving of furnace stock:	by two stage bogie	Temperature of accuracy:	± 3 °C
Dimensions of working chamber:	2300x4500x1600 mm
